

Learning Support Models

Math-Whizz resources are designed to support learners at all levels in a variety of settings. The engaging, interactive lessons motivate students and encourage class participation.

Learning Support Model	Description	Teachers' Resource	Tutoring Plus
Core Enrichment	Supplement your district's adopted curriculum with Math Whizz to enrich and strengthen student understanding.	✓	✓
Intervention Programs	Combines continuous assessment (formative and summative) with individualized, adaptive instruction. Curriculum is delivered at the student's pace and provides constant positive reinforcement and on-demand assistance.		✓
Extended Day	Provide students with accessible opportunities for further learning beyond the regular school day.	✓	✓
Summer School Programs	Provide opportunities to decrease summer learning loss and increase math readiness. Summer learning opportunities can be customized to your district's specific program(s).	✓	✓
Acceleration/Gifted and Talented	Students have the opportunity to master skills and advance at their own pace.		✓
Special Education	Students can move at their own pace and review topics at any time. Content is delivered at the student's pace and provides constant positive reinforcement and on-demand assistance.		✓
Remedial Support	Provides students with instruction on critical concepts to build a strong foundation for future mathematics success.	✓	✓
